PROFESSIONAL SUMMARY

Detail-oriented technical operations specialist with 6+ years of experience bridging the gap between web development and digital revenue. Expert in utilizing logic and Chrome DevTools to audit tracking implementation, troubleshoot broken pixels, and ensure 100% campaign accuracy. Seeking to leverage deep technical data analysis and workflow optimization skills in a dedicated Ad Operations or Implementation role, trading "people management" for pure technical precision and flawless execution.

TECHNICAL EXPERIENCE

Technical Support & Implementation Specialist

NOV 2025 - PRESENT

BlueTone Media

- Serve as the technical anchor for digital marketing operations, resolving complex tracking, hosting, and API integration anomalies across dozens of high-traffic sites.
- Audit front-end architectures using Chrome DevTools (Network/Console) and HTML/JS analysis to identify and repair broken conversion tags (GTM, GA4, Meta).
- Execute complex backend ticket resolutions independently, bypassing tier-1 support to deploy database optimizations and script injections natively.
- Process high-volume, data-heavy task queues with meticulous accuracy, continuously hitting 100% SLA compliance for ad-tech deployment and issue resolution.

Technical Operations Lead (Service Director)

NOV 2022 - DEC 2025

BlueTone Media

- Architected and implemented deep technical strategies for Conversion Rate Optimization (CRO) and Technical SEO, resulting in measurable revenue lift for enterprise clients.
- Audited and standardized cross-platform tracking deployments, establishing rigorous QA workflows utilized firm-wide to prevent data discrepancies.
- Monitored delivery pipelines and campaign performance, stepping in to troubleshoot server-side routing issues and correct complex programmatic logic.

Technical Integration Coordinator

MAR 2021 - NOV 2022

BlueTone Media

- Executed the migration of digital assets from scoping to staging environments, ensuring code integrity and 100% functional parity.
- Performed rigorous manual QA testing, evaluating cross-browser compatibility and verifying ad-tech tagging within raw page source code.

Environmental Data Analyst

JAN 2014 - OCT 2015

Pace Analytical

- Operated strictly logic-based systems requiring zero-tolerance for data entry errors, utilizing highly structured Laboratory Information Management Systems (LIMS).
- Analyzed complex datasets using advanced spreadsheets to ensure compliance with rigid federal quality control thresholds.
