RELIABLE SUPPORT & MASTERY

Technical specialist with 6+ years of experience providing **high-fidelity support** and **flawless implementation** for enterprise GTM systems. I specialize in solving complex technical friction with ease, ensuring client happiness and operational stability. I am a low-context, highly autonomous professional who excels in **distributed, asynchronous environments** where Clear communication is the primary source of truth.

TECHNICAL EXPERIENCE

Technical Support & Implementation Lead

NOV 2025 - PRESENT

BlueTone Media

→ Primary technical point of contact for an **enterprise SaaS platform**, managing technical troubleshooting and platform stability with a focus on ease-of-use.

→ Engineered internal **automation scripts** and Chrome Extensions to eliminate manual errors and streamline the technical onboarding process for new accounts.

TECHNICAL TOOLKIT

THE "FREEDOM" STACK

- GTM / GA4 Mastery
- HubSpot Implementation
- WordPress Specialist
- WooCommerce / Shopify

TECHNICAL LOGIC

- SQL / phpMyAdmin
- HTML / CSS / JS
- API Implementations

→ Provide forensic-level support for tracking, pixels (GTM/GA4), and **technical SEO**, resolving complex integration issues with a zero-friction approach.

→ Maintain data integrity through direct **SQL queries** and database troubleshooting, ensuring consistent platform uptime for high-spend campaigns.

Technical Operations Lead NOV 2022 - OCT 2025

BlueTone Media

→ Established the "Reliability Protocol" for technical deployments, leading to a 30% reduction in support ticket volume through proactive systems auditing.

→ Mastered the implementation of complex conversion tracking architectures across diverse CMS platforms (WordPress, Shopify, WooCommerce).

→ Empowered a distributed team by authoring **comprehensive technical documentation**, making complex integrations accessible and repeatable.

Environmental Data Analyst

Pace Analytical

→ Ensured 100% technical accuracy within high-stakes data environments (LIMS), maintaining a flawless track record for data integrity performance.

Google Apps Script

Python (Automation)

NOMAD READINESS
