jeremy-wood-nc

PROFESSIONAL PROFILE

Service-oriented **Operations Specialist** with 6+ years of experience in technical service delivery and production support. Expert in **high-fidelity queue management** and ticketing environments, specializing in triaging complex requests for enterprise-level GTM platforms. Proven track record of maintaining data integrity in high-stakes environments, combining analytical rigor with a "zero-leak" approach to SLA compliance.

OPERATIONAL EXPERIENCE

Technical Support & Implementation Analyst

Nov 2025 – Present

BlueTone Media

- **Queue Triage Master:** Manage end-to-end ticketing lifecycles for a proprietary SaaS platform, ensuring 100% accuracy in categorization, routing, and escalation.
- **SLA Compliance Engine:** Automated ticket auditing via custom **Chrome Extensions** and Google Apps Script, reducing triage overhead by 40% while maintaining flawless data quality.
- **Forensic Troubleshooting:** Perform deep-dive technical audits of client implementations (pixels, tags, analytics) to resolve high-priority incident tickets.
- **Reporting & Dashboards:** Utilize SQL to generate weekly operational reports on ticket volumes, resolution trends, and system bottlenecks.

NOMAD READINESS

Autonomous, asynchronous-first, and experienced in 100% distributed environments. **Japan 2029 Target.**

Technical Operations Lead

Nov 2022 – Oct 2025

BlueTone Media

- Designed and deployed the **Operational Service Delivery** framework for the tech team, resulting in a 30% reduction in "aging tickets" through strict routing protocols.
- Managed multiple concurrent task queues across WordPress and Shopify environments, ensuring seamless handoffs between engineering and account teams.
- Authored the **Master Procedural Guide** for the support desk, standardizing ticket notes and field requirements to ensure high system integrity.

Environmental Data Specialist

Previous Engagement

Pace Analytical

- Managed critical data inputs within a high-stakes **LIMS (Laboratory Information Management System)**, adhering to rigid federal reporting protocols.
- Maintained 100% accuracy in sample tracking and record management under extreme precision requirements.
